

Lindab **Roof Drainage System**

Lindab Rainline ™

Timeless aesthetics with
quarter round system from Lindab

Lindab®

Lindab's building components in sheet metal are quality products designed, developed and produced in Sweden. Each product has been developed by engineers with industry-leading knowledge of design and product development, and holds comprehensive building-technical innovation value.

Lindab® Swedish steel design

The aesthetic system

Lindabs' quarter round roof drainage system combines form and function to offer a product that complements the facade of the house and creates an attractive exterior.

Lindab works continously with new products that contributes to create better and more beautiful buildings. Our quarter round system creates an unique impression by giving the roof a natural ending with a minimal shadow image. The system is complemented by our existing range of downpipe products.

Lindab quarter round Rainline in short

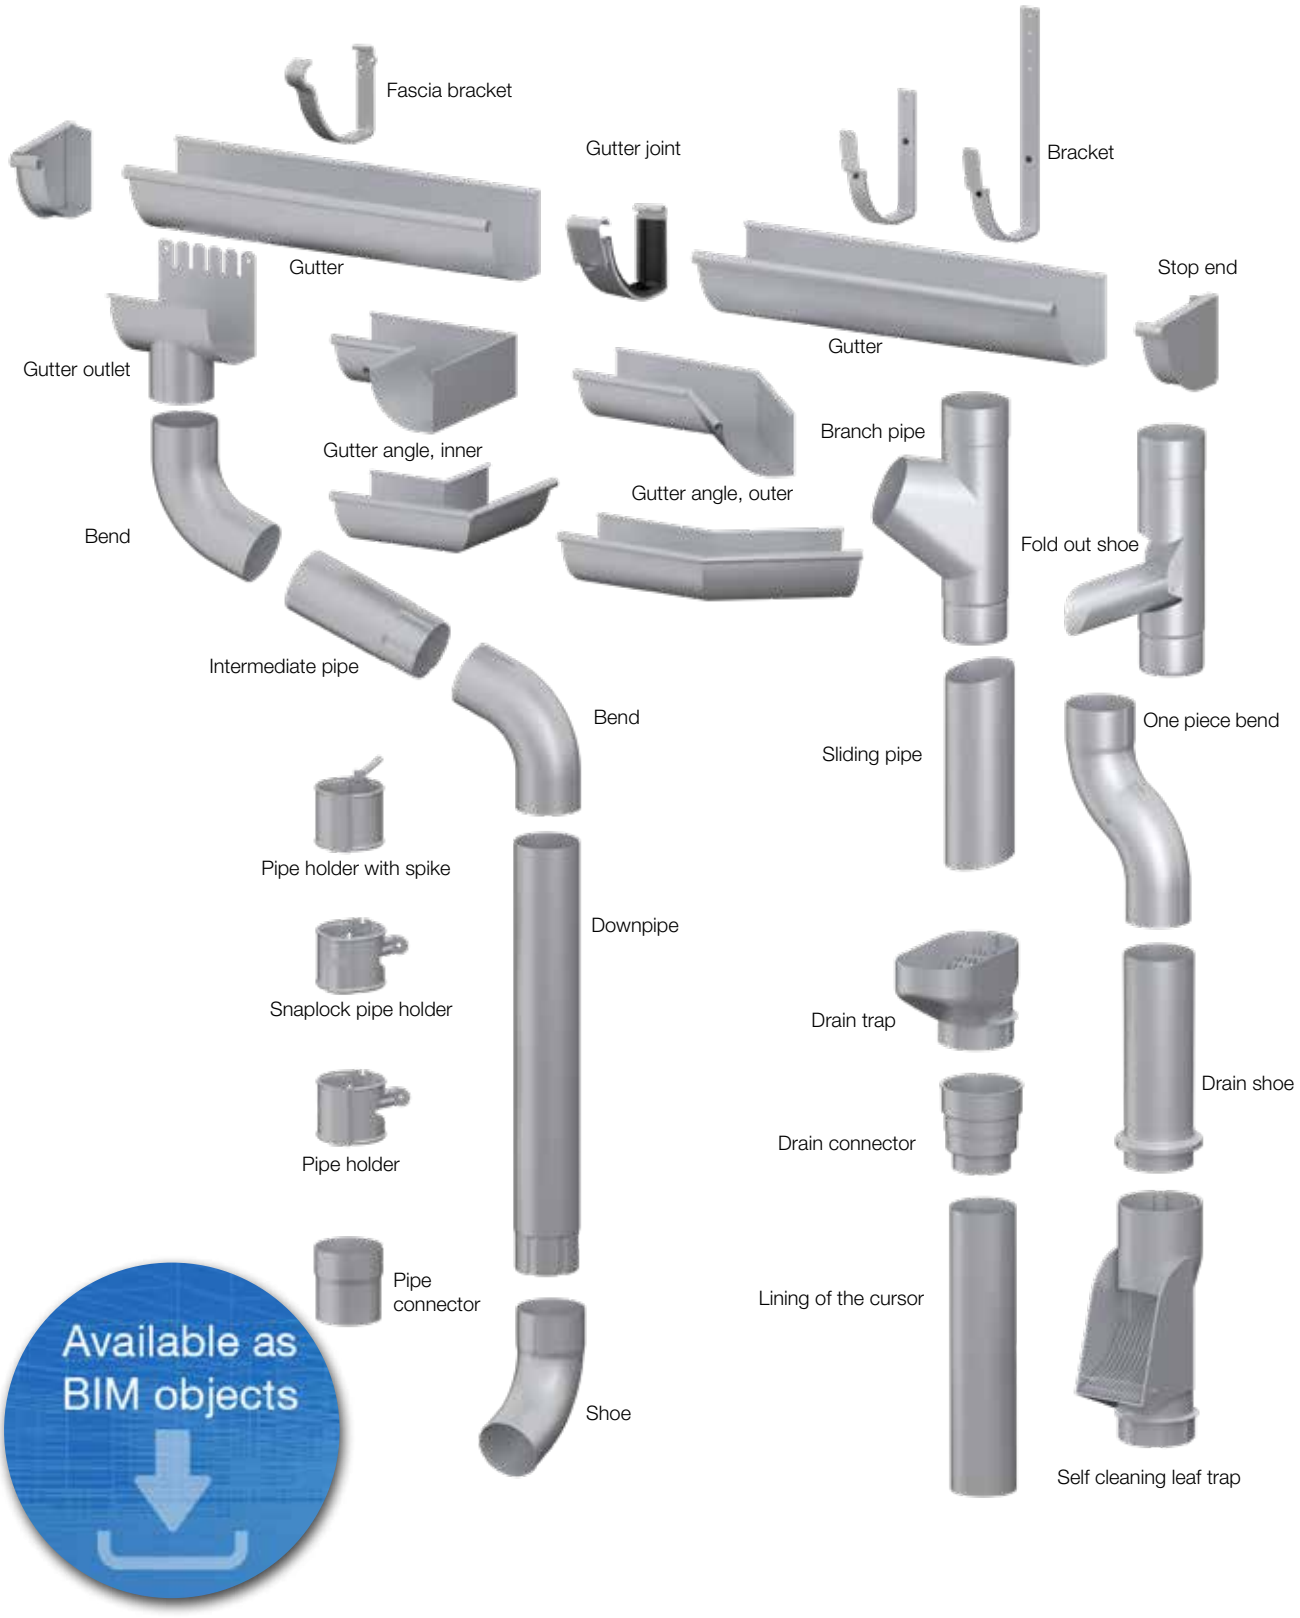

- Premium quality
- Timeless design
- Complete assorment
- Design with high capacity

Classic colours

The quarter round system is available in four different colours. All are weatherproofed with extra durable high-build polyester paint, with an attractive, elegant finish. You can also choose form a variety of RAL-colours.

Most of us spend the majority of our time indoors. Indoor climate is crucial to how we feel, how productive we are and if we stay healthy.

We at Lindab have therefore made it our most important objective to contribute to an indoor climate that improves people's lives. We do this by developing energy-efficient ventilation solutions and durable building products. We also aim to contribute to a better climate for our planet by working in a way that is sustainable for both people and the environment.

Lindab | For a better climate
